

## Recycling Automotive Products

### FACT SHEET #9

#### ANTIFREEZE

*Antifreeze can be deadly to pets, who will lick up spills. Be sure to keep antifreeze in closed containers and wipe up spills immediately. Consider having your antifreeze changed at your local service station, which is equipped to collect and store it for recycling. If you are a resident who changes your own antifreeze, please look at pages 3 and 4 of this sheet for recycling drop-off locations. Also, ask your local service station if they will accept used antifreeze from do-it-yourselfers for recycling. You may be charged a small fee.*

*Businesses may not bring their antifreeze to the recycling drop-off sites; however, there are several companies that provide antifreeze collection service. For a list of local companies, please call (262) 896-8317.*

#### AUTOMOTIVE BATTERIES

*State law prohibits disposal of lead acid batteries in landfills or incinerators. State law also requires that all vehicle battery retailers accept used lead-acid batteries at no charge from anyone purchasing a battery from them. Proof of purchase may be required before a retailer will accept your used battery. If you have used batteries but aren't purchasing new ones, the following companies will accept them for recycling for a small fee:*

**Aztak Recycling**

8300 W. Florist Ave.  
Milwaukee, WI  
(414) 466-2150

**Challenger Battery Corp.**

406 West Sunset Drive  
Waukesha, WI  
(262) 547-3854

**Kohne Salvage**

W200 S7203 Williams Dr.  
Muskego, WI  
(262) 679-1135

**Batteries Plus**

2830 N. Grandview Blvd.  
Waukesha, WI  
(262) 548-9222

**H&R Scrap Metals, Inc.**

9000 W. Fond du Lac Ave.  
Milwaukee, WI  
(414) 353-4333

**Waukesha Iron & Metal**

1351 East Main Street  
Waukesha, WI 53186  
(262) 547-7293

**Kral Scrap Metal**

W224 S8575 Industrial Dr.  
Big Bend, WI  
(262) 662-3215

*Wear safety goggles and gloves when you pick up a battery, and carry it in a wooden box or a leak-proof container. If you drop a battery, neutralize any spilled acid with baking soda or lime.*

#### GASOLINE

*Try to use up gasoline in snow blowers, lawn mowers and other small equipment before the end of the season. You can also safely use small amounts in your automobile.*

*You can bring old gasoline to the County's Household Hazardous Waste Collection*

sites. For more information, call (262) 896-8016.

### MOTOR OIL

For drop-off locations where do-it-yourself oil changers can take their oil, please look at the inside of this sheet. Also, ask your local service station or oil change company if they will accept used motor oil from do-it-yourselfers for recycling. You may be charged a small fee.

Consider purchasing re-refined motor oil next time you change your oil. Modern re-refined oils pass the same quality and performance standards as do virgin oils; in fact, they are chemically identical. Ask your motor oil provider if they carry re-refined oil, and if they don't, request that they start offering it.

### OIL FILTERS

Ask your local service stations or oil-change company if they will accept used motor oil filters from do-it-yourself oil changers. They may charge a fee for the service. If you are going to throw the oil filter in the trash, drain it first by punching a hole in the top and inverting it over your oil change pan to drain. Then plug the hole with paper towels, put the drained filter in the box the new filter came in, and place the box in the trash.

### TIRES

**Check with your municipality or hauler for special large trash or tire collections.**

Landfills and private companies (see the Yellow Pages under "Tire Dealers or call one of the following businesses) charge a small recycling fee.

**Broxton Tire Service and Sales** -Milwaukee  
(414) 342-5300

**Taylor Industrial Vac** -Milwaukee  
(414) 447-4700

**Metro Landfill**- Franklin  
(414) 529-6180

**Waste Management** Franklin  
(414) 761-2100

**Orchard Ridge Landfill**- Menomonee Falls  
(262) 253-8706

Make sure your tires are properly inflated-it will improve your gas mileage, increase safety and help your tires last longer. Rotating your tires regularly will also lengthen their life. If you are looking to buy new tires, consider getting radials. They improve gas mileage by up to 10 percent!

### SMART Cars Save Money and Reduce Trash with regular maintenance and repairs

Regular maintenance on your car will not only make it last longer, but will help it to run better, saving gas and producing less exhaust fumes. All of this will reduce your car's impact on the environment, and save you money! For other waste reduction and money saving tips visit [www.besmart.org](http://www.besmart.org)

Please check with individual companies for changes in their policies or charges for services.

This list contains the most current information available at the time of printing. This list is partial and does not constitute an endorsement of any business by Waukesha County.

## USED MOTOR OIL & ANTIFREEZE RECYCLING SITES

All the sites listed here accept used motor oil. Sites that accept used antifreeze are marked with an A.

\* Regional sites that accept antifreeze from any county resident

\*\* S&S Research charges \$1.00/gallon for antifreeze, but there is no charge for used motor oil

<b>City of Brookfield (A)</b>	Recycling & Disposal Center 19450 Riverview Drive	Saturdays, 8 AM - 5 PM Tuesdays & Thursdays, 1 - 7 PM (May -Nov)
<b>City of Delafield</b>	Dept. of Public Works 111 Main Street	Saturdays, 9 AM - 1 PM
<b>Village of Elm Grove</b>	Public Works Yard 900 Wall Street	Monday - Friday, 7:30 AM - 3:30PM Saturdays, 9 AM - 4 PM (Apr - Nov)
